

Yanou & Partners IT Services

IT Asset Management Policy — ITAM-001 Version 3.2

This policy governs tagging, capitalization, custody, transfer, termination returns, physical inventory, exception escalation, and fixed-asset ledger reconciliation for Yanou & Partners IT Services. Effective under ITAM-001 v3.2.

1. Scope

Applies to all capitalized and tracked IT assets including laptops, mobile devices, monitors, and network assets assigned to Yanou & Partners IT Services personnel.

2. Capitalization and NBV

Assets meeting the capitalization threshold are recorded in the fixed asset ledger with acquisition cost, accumulated depreciation, and net book value. Net book value must equal acquisition cost minus accumulated depreciation at all times.

3. Custody and Termination

On employee termination, assigned assets must be returned within five (5) business days. Unreturned assets after the deadline are Critical certification blockers requiring exception escalation and financial exposure quantification under ITAM-001 v3.2 section 9.

4. Control Matrix

The ITAM control matrix below is maintained for Yanou & Partners IT Services under ITAM-001 v3.2 and is the authoritative visual summary of key controls.

ITAM Control Matrix — Yanou & Partners IT Services (ITAM-001 v3.2)

Yanou & Partners IT Services — ITAM Control Matrix

Policy ITAM-001 v3.2 | Entity: Yanou & Partners IT Services
